

Stonerise Healthcare: Safety Promise

There is nothing we take more seriously than the health and safety of our patients and team members. While the COVID-19 pandemic has increased the awareness of safety issues, the Stonerise Safety Promise is an important part of the transitional care we provide. Today, our Safety Promise focuses on Prevent, Detect & Treat, and Support.

Prevent.

From the beginning, we have implemented aggressive prevention efforts aimed at keeping patients and all of our team members safe and healthy.

Detect & Treat.

We are acting quickly to detect and safely treat patients affected by COVID-19.

Support.

We are providing our patients, their loved ones and our employees tools and resources to support their wellbeing during these challenging times.

PREVENT

Restricted visitor access

Secured bulk supplies to protect employees and patients

Provided staff with additional training on disease prevention procedures, including PPE infection control audits

Limited new admissions through Safe Harbor Units

Offered telehealth visits across service lines

Continued focus on sanitation and cleanliness procedures

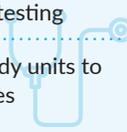

DETECT & TREAT

Implemented screening of all employees at the beginning of each shift, including temperature checks

Screened patients every 12 hours for COVID-19 symptoms and proactively tested patients showing symptoms based on CDC criteria

Called for testing of all patients and employees in any center with a positive case before state mandated testing

Implemented COVID-19-ready units to effectively treat positive cases

SUPPORT

Pivoted in-person visits to televisit options to keep patients connected to their loved ones

Created Guardian Angel program to keep families and loved ones informed and aware of patient's status

Supported staff through appreciation increase, daily devotionals and childcare assistance if needed

Set up and promoted front-line employee fundraisers

Interested in learning more about the steps we're taking to protect and serve our Stonerise family?

We are committed to these efforts and more to lessen the impact of COVID-19 on West Virginia and Ohio, and to continue delivering compassionate, clinician-led care to the patients who count on us every day to get them back to health.

Visit stonerisehealthcare.com and follow us on Facebook for ongoing updates related to COVID-19 and the proactive steps we're taking to care for our employees, patients and the people who love them.
